

Mini DisplayPort Extension Cable

- Extend the 24- and 27-inch Apple LED Cinema Display
- Extend both audio and video
- USB audio with Mini DisplayPort video in a single-cable solution

Extend-Further

Locate your Apple computer from up to ten feet away. Break your distance barrier by extending your display just the way you wanted it. Mounting your Cinema Display just got easier.

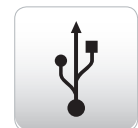

Easy Plug and Play

Simple plug and play cable compatible with all Mac products. Includes Mini DisplayPort connector and USB. No software or drivers installation necessary.

Audio, Video, and USB Passthrough

Get full audio, video, and USB connectivity while extending the reach of the Mini DisplayPort and USB connectors. Record video and snap pictures with your iSight camera, power the USB hub located on the back of the Cinema Display, and transmit audio for both the 24-inch and 27-inch Apple LED Cinema Displays.

Technical Specifications:

- Input: Mini DisplayPort / USB
