

# Stereo AUX Flat Cable

Listen tangle-free.

The Stereo AUX Flat Cable lets you connect your favorite media device to a car or home speaker system. It works with any device that has a 3.5mm auxiliary port, including smartphones, MP3 players, media players, tablets, and laptops.

This flat silicone cable is designed to prevent tangling and is easy to store. Choose from a variety of vibrant cable colors to suit your personal style. Premium gold-plated connectors provide superior signal transfer, giving you the rich acoustic experience your ears crave. You never have to worry about damage to the connectors – the gold-plated tips are corrosion-proof, providing maximum conductivity.

## Key Features
