Step6: Select "settings" tab wireless settings wireless Hotspot. Then set wireless Parameter Authentication either WPA or WPA2.

Step8: Now, disconnect the equipment and the printer. When you try to reconnect, it will ask you to input the password you set on step 7, to use the printer via Wi-Fi. Password setup is done successfully.

3. How do I recover my default factory settings for my Wi-Fi password, in case I forget?

- a) Turn off the printer power switch.
- b) Press the "cancel / continue" button and turn the printer on and hold till 5 seconds.

c) Now the printer has reset itself back to factory settings. Repeat the same above process to reset the password.

4. How do I take a mobile print out from Android?

Download APP on Android device > Switch on printer > Connect printer hotspot > Running App > setting > print.

And the App user manual Link is: http://global.pantum.com/global/supportdata/p2500/ Pantum%20P2200P2500%20Driver%20User%20Guide%20V1.0/WIFI%20Printing%20Setup%20User%20Guide.pdf

5. How do I take a mobile print out from IOS?

IOS has print app by itself, so it just need to connect the printer and print. Switch on printer > Connect printer hotspot > Select a file > Setup and print

And detail step Link is: http://global.pantum.com/global/supportdata/p2500/ Pantum%20P2200P2500%20Driver%20User%20Guide%20V1.0/WIFI%20Printing%20Setup%20User%20Guide.pdf

6. Does my Pantum P2500W series works on Windows Mobile?

No, P2500W series does not support Windows Mobile.

Thank you for choosing Pantum products.
