FCC Compliance Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Use of Trademarks, Registered Trademarks, and other Protected Names and Symbols

This manual may make reference to trademarks, registered trademarks, and other protected names and/or symbols of third-party companies not related in any way to StarTech.com. Where they occur these references are for illustrative purposes only and do not represent an endorsement of a product or service by StarTech.com, or an endorsement of the product(s) to which this manual applies by the third-party company in question. Regardless of any direct acknowledgement elsewhere in the body of this document, StarTech.com hereby acknowledges that all trademarks, registered trademarks, service marks, and other protected names and/or symbols contained in this manual and related documents are the property of their respective holders.

Introduction

The USB2VGAPRO2 USB to VGA External Video Card Adapter for PC and MAC - 1920x1200 is the perfect solution for turning your workstation into a dual or multi-monitor environment using your USB ports - providing high quality, dual display or multi-monitor capability for a variety of laptop or desktop applications.

This USB VGA display adapter is capable of running up to five additional displays from one computer simultaneously (using four USB2VGAPRO2 External Video Adapters). The adapter connects to a host computer through a USB 2.0 port, acting as an external VGA video card to either extend or mirror the desktop shown on the existing display - without having to open the computer case.

USB2VGAPRO2 offers support for Microsoft Windows® (including Aero themes) and Mac OS X, and with support for resolutions up to 1920x1200 this device is ideal for larger displays / monitors.

Backed by a StarTech.com 2-year warranty and free lifetime technical support.

Software and Hardware Installation

Windows®

Please ensure that the driver installation is complete prior to the physical installation (plugging in) of the USB Video Adapter

1. Download the latest drivers from the StarTech.com website (recommended), or insert the included Driver CD into your CD/DVD-ROM drive.

2. Locate the Setup.exe application. This file will be located in the folder labeled "Windows" on the Driver CD (e.g. D:\) or downloaded file.

3. Executing the Setup.exe application will launch the following screen. Please click I Accept to start installation process. The set-up program will install the device driver and software application respectively.

***Ensure that the USB Video Adapter is not connected to the host computer.**

* The screen may flash or go black during installation. No additional message will be displayed to alert that the installation has completed.
