HP Jetdirect 2700w USB Wireless Print Server

Wireless, secure, and easy-to-install network printing¹

- Secure wireless solution gives you flexibility to place printers in more convenient locations.¹
- Get fast performance and strong radio signals with 802.11 b/g/n signals to deliver reliable printing.¹
- Install and connect easily using the USB port, with no need for additional cables or power source.

Maintain security on protected wireless networks¹

- Rely on HP for secure network printing via wireless connection.¹
- Get fast, secure authentication and point-to-point encryption across your network.
- Easily install, configure, and manage data with enterprise-class security.

Extend the capability of HP ePrint-enabled devices²

- Stay productive on the go—use HP ePrint mobile printing for emails, photos, business materials, and more.²
- Use HP ePrint mobile printing to send a print job as an email to a compatible HP ePrint-enabled printer.²
- HP ePrint mobile printing allows you to access, send, and print content when and where you need it.²

¹ Wireless performance is dependent upon physical environment and distance from access point, and may be limited during active VPN connections.

² Requires an Internet connection to the printer. Feature works with any ePrint-capable supported device. Print times may vary. Some HP LaserJets may require a firmware upgrade.
