Excellence

Perform your very best in business

Elite Design
Modern designs made only from the highest quality materials.

Elite Reliability
Rock-solid durability to perform at your best.

Elite IT
Protect your PCs at every level, and remotely deploy and manage your fleet.

Elite Experience
Hardware, software, and services that work together to make business run better.

Elite Support
What professional service and support should be.

Elite Management
Get your fleet up and running—and keep them that way.

HP Elite PCs are designed for your most important work. Along with outstanding reliability, you get the highest quality materials and your choice of modern designs. Conquer the workday with hardware, software, and services that perform seamlessly together. Go beyond everyday business with HP Elite PCs.

Elite Design

The new look of business.

The HP Elite series offers a choice of modern designs in just about any size and shape, whether it's an ultra-slim notebook, tablet, hybrid, all-in-one, or ultra-slim desktop. From materials to aesthetics to size and weight, every detail is carefully considered to deliver an experience that's second to none.[1]

The HP EliteBook Revolve was named "Best Notebook" by Notebooks.com at CES in January 2013.

Magnesium alloy chassis
The notebook's magnesium alloy chassis is 18 times stronger than a plastic case, providing excellent protection for the system board, hard drive, optical drive, and other key components.

Palm rest
The new notebook palm rest assembly is a single piece of anodized aluminum, providing extra rigidity where your wrist and arm apply the most pressure.

HP 3D DriveGuard
An internal accelerometer senses sudden movement and automatically stops the notebook's hard drive and parks the drive head to help prevent damage.

Space-saving desktops
Wall-mountable all-in-one designs adapt to your workspace with height-adjustable stands, and ultra-slim desktops can be connected to an integrated work center stand to save space[2].

Titanium alloy reinforced latches
The notebook's titanium alloy reinforced display latches are designed for added protection against shock and side impacts.

HP DisplaySafe frame
The HP DisplaySafe frame uses double-shot rubber pads to protect the notebook screen from scuffs and scratches.

Machined aluminum ElitePad chassis
Lightweight and built to last, the HP ElitePad looks and feels as good as it functions, with an aluminum body, contoured edges, and Corning® Gorilla® Glass 2.

Prolonged battery life
True mobility only goes as far as your battery will take you, which is why we make runtime a priority. For example, an HP EliteBook 8470p PC with a 9-cell (100WHr) primary battery and optional HP BB09 Ultra Extended Life Notebook Battery can last for up to 36 hours![3]

[1] Some features may not be supported across the entire HP Elite product line.

[2] Wall mounting hardware sold separately.

[3] The HP EliteBook 8470p runs up to 36 hours with the 9-cell (100WHr) Li-Ion primary battery, separately purchased HP BB09 Ultra Extended Life Notebook Battery, and customer download of the latest Intel graphics driver and HP BIOS. Notebook must be configured with Intel graphics, optional Intel 160GB solid-state drive, HP LED HD display, and Windows 7 operating system. Battery life will vary depending on the product model, configuration, loaded applications, features, wireless functionality, and power management settings. The maximum capacity of the battery will decrease with time and usage.

Elite Reliability

Get maximum reliability. Perform at your best.

Your most important work calls for the best in reliability. HP Elite PCs go through 115,000 hours of strenuous testing, for rock-solid durability you can rely on day after day. From MIL-STD-810G testing to best-in-class battery life, you have all the confidence you need.[1]

HP ranked No. 1 in overall PC satisfaction, which encompasses product, sales and support areas.

 —TBR Report Highlights, 4Q '12, Corporate IT Buying Behavior and Customer Satisfaction Study, Technology Business Research, Inc.

Drop test
HP EliteBook PCs are dropped 26 times on every side to help get you through the knocks, bumps, and stress of constant travel.

Vibration test
For your peace of mind, we subject our PCs to the vibrations of 1,000 miles of ground transportation. HP Elite PCs are designed to handle the stresses of constant travel to help you stay on the move.

Mechanical shock test
We jolt our PCs in six different directions for a total of 18 mechanical shocks. We do this so your HP Elite PC is prepared for business, even in rough or unpredictable environments.

High and low temperature tests
Systems are baked in an oven at 140°F (60°C) and chilled in a freezer to −20°F (−29°C) to simulate extreme temperature conditions, so you can count on your Elite PC to power up, winter and summer.

Temperature shock test
We subject the PC to sudden temperature changes greater than 18°F (10°C) within one minute. Even if you're constantly moving between climate-controlled buildings and outdoor worksites, your HP Elite PC is all about helping you move your business forward.

Dust test
Dust is blasted at the system for six straight hours to help ensure that internal and external components won't fail in harsh environments. HP Elite PCs are ready for the office, the outback, or most anywhere you roam.

Altitude test
A test chamber simulates the pressure of an altitude of 15,000 feet (4,572m). You can work in the mountains or in a helicopter, and your HP Elite PC can rise to the challenge.

Humidity test
HP Elite PCs are exposed to high levels of humidity in a controlled setting, to simulate diverse extreme environments around the world.

[1] HP EliteBooks, HP ElitePads, and HP Elite Desktops pass up to nine MIL-STD-810G tests. MIL-STD-810G testing was not intended to demonstrate fitness for U.S. Department of Defense contracts or for military use. Test results are not a guarantee of future performance under these test conditions.

Elite IT

Built-in security and manageability that's second to none.

HP Elite PCs feature integrated security that provides layers of protection. Get enhanced defense against virus attacks and other threats, and keep your data encrypted.

HP Client Security
Protect what's important—your data and your customers—and reduce the risk of disaster with award-winning HP Client Security. HP Elite PCs incorporate multi-layered security features that protect your device, data, and identity—and your business. Features like HP BIOS Protection, Device Access Manager, and HP Master Boot Record protection keep you up and running with enhanced defense against virus attacks and other threats.[1] And with the added protection of HP Drive Encryption included, your data stays encrypted if your PC is lost or stolen.[2]

HP Client Management
Make management simpler thanks to remote access. HP Client Management allows access to remotely deploy, manage, and secure your HP Elite PCs without ever having to physically touch the unit. Lock your PCs or run programs with just a click from wherever you are.

Plus, IT can centrally manage all the HP Elite PCs throughout your organization, saving them time and money. HP Client Management Solutions help reduce the cost of owning your Elite PCs throughout their lifecycle. Take advantage of available HP management tools designed to address top IT concerns:

• Deployment and Migration

• Remote Assistance

• Energy Conservation

• Mobile Users and Device Management

• BIOS Configuration and Management

• Hardware Failure Alerting

• Driver and Update Acquisition

• Driver and Update Delivery

HP Elite PCs are also backed by the new, innovative, co-development relationship with LANDesk Software, as well as expanded HP client hardware management capabilities in Microsoft SCCM and continued support for HP Client Automation and Symantec solutions.

Breathe easier if your HP Elite PC goes missing. The optional LANDesk Management Suite can help locate your PC and protect your data by remotely locking your device, and erasing all or some of the data from your hard drive.[3] The IT team can even arm your HP Elite PC to lock ports and use stricter screen saver settings based on the user's location, protecting your confidential information.

[1] HP Tools partition with an HP BIOS required for automatic recovery. Business desktops and HP ElitePad do not support this HP BIOS Protection feature.

[2] For the methods outlined in the National Institute of Standards and Technology Special Publication 800-88.

[3] LANDesk software is sold separately. Location-based functionality planned to be available in May 2013 and requires active LANDesk maintenance service or purchase of updated LANDesk license with location-based settings when available.

Elite Experience

Fine-tuned to work seamlessly together.

HP hardware, software, and services work together to make business run better. Your most important work calls for HP Elite PCs.

HP Page Lift
See it. Lift it. Use it.
Capture a document and it is automatically trimmed, correctly lit, and properly oriented. Just like that. Developed by HP Labs, HP Page Lift is a whole new way to work with everyday business images—whether it's a picture of a whiteboard or a paper contract.[1]

HP ePrint
Print from virtually anywhere.
Print critical documents when you're on the go. With HP ePrint software, you can print to any HP ePrint–enabled printer—and many networked HP printers—without downloading drivers. HP ePrint software also allows you to print remotely to more than 24,000 public locations.[2]

HP Wireless Hotspot
Quickly share connectivity.
Make your workgroup more productive by turning your HP business computer into a personal wireless hotspot. HP Wireless Hotspot allows you to share your Internet connection and network bandwidth so everyone on your team can get more done.[3]

[1] HP Page Lift requires Microsoft Windows 8 Pro.

[2] HP ePrint requires an Internet connection to a Web-enabled HP printer and HP ePrint account registration. For a list of eligible printers, supported document and image types, and other HP ePrint details, see hp.com/go/eprintcenter. Broadband use requires separately purchased service contract; check with service provider for coverage and availability in your area. Separately purchased data plans or usage fees may apply. Print times and connection speeds may vary. HP ePrint at HP Public Print locations requires an Internet- and e-mail-capable smartphone or tablet with separately purchased wireless Internet service, and the HP ePrint app or HP ePrint software. Availability and cost of printing varies by location. Visit hp.com/go/eprintmobile for a list of applicable smartphone and tablet operating systems.

[3] HP Wireless Hotspot requires an active Internet connection and separately purchased data plan. While the mobile hotspot is active, on-device applications will continue to work and will use the same data plan as the mobile hotspot. Mobile hotspot data usage may incur additional charges. Check your plan for details. Requires Microsoft Windows 8.

Elite Management

Deploy globally. Manage simply.

The incredibly daunting is suddenly surprisingly doable.

HP Lifecycle Management allows for more predictable product transitions to help you plan, procure, and deploy your IT investment, reducing your total cost of ownership. HP is committed to meeting the needs of our business customers by offering long enterprise product lifecycles that extend up to 18 months.

HP Global Series and HP Custom Integration Services make it easy to deploy Elite PCs across a worldwide enterprise, with services like custom image loading and asset tagging that free up your IT staff to focus on what really matters. With common SKUs across 176 countries, you can be confident that integration will go smoothly.

Elite Support
Focus on what you care about.
A full range of extended services contracts provides access to highly-trained support specialists when you need them, as well as customized configuration and deployment.

"For global enterprise customers … the purchase decision process considers various factors, including the ability to provide appropriate services and to support global deployments. Working with desktop and notebook vendors that can meet these requirements helps reduce the total cost of PC ownership."

—Gartner Magic Quadrant Report, October 2012

Front and back cameras
See clearly with the HD webcam and 8MP camera with LED flash.

Touch screen
Intuitive touch capability gives you direct, hands-on control.

Long battery life
Intuitive touch capability gives you direct, hands-on control.

[1] Not all features are available in all editions of Windows 8. Systems may require upgraded and/or separately purchased hardware, drivers, and/or software to take full advantage of Windows 8 functionality. See microsoft.com. This system is Windows 8 certified and supports the new Windows UI. The integrated display resolution is below the threshold for Snap, a Windows UI feature that allows two Windows Store apps to be viewed simultaneously. This feature may be enabled by attaching an external 1366 x 768 or higher resolution display.

[2] Accessory devices sold separately.

[3] Service tool must be purchased separately. For customers in the United States and Canada, visit hp.com/partners/SMprogram to find out more about our self-maintainer program. For Latin America, EMEA, and Asia Pacific customers, please work directly with your sales account representative to understand what self-repair program options may be available for you.

[4] Runtime tested up to 10 hours and 15 minutes on a Windows 8 system. Testing conducted by HP consisting of full battery discharge while running a series of productivity scripts against the following applications (which may or may not be included with your particular product): Adobe® Acrobat® Reader 7.0, Adobe Illustrator® CS2, Adobe Photoshop® CS2, Apple® QuickTime 7.1, Intervideo WinDVD 8, Macromedia Flash 8, Microsoft Office 2003 Pro, Microsoft Project 2003, and Winzip 10.0. Prior to testing, the system was fully charged, display brightness was set at 60 nits, wireless was turned off, and auto dim, suspend, hibernate, and all other programs, utilities, and services not essential to running the computer system or battery life test were disabled. Battery life will vary depending on the product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage.

HP ElitePad

Go beyond everyday business with the HP ElitePad, our premium thin and light Windows 8 tablet.[1] Its elegant design and touch experience puts productivity at your fingertips. Expand your potential by a from a complete suite of thoughtfully designed accessories like a full keyboard, docking station, and smart jackets for extra productivity and battery life. Easy to deploy. Effortless to manage. Simple to secure. And fully serviceable. The HP ElitePad moves your entire business ahead.

Adaptable. Expandable. Incredible.
Slide the HP ElitePad into different jackets for added functionality, such as the Expansion Jacket with a full array of ports and an optional battery, or the Productivity Jacket with a keyboard.[2] Also get additional drive space by inserting a Micro SD Card.

Sleek. Elegant. Thoughtful.
Contoured edges, an anti-smudge screen, and aluminum buttons make the HP ElitePad look and feel as good as it functions.

Practical. Reliable. Manageable.
Get a familiar enterprise-class setup experience, plus services and protection that take the headache away from IT. And unlike many tablet PCs, the HP ElitePad is fully serviceable with the optional service tool for HP Self-Maintainers.[3]

HP ElitePad Productivity Jacket

HP ElitePad Expansion Jacket with Battery

HP ElitePad Docking Station

HP Multi-Tablet Charging Module

[1] Not all products available in all regions at launch.

[2] Runtime tested up to 20 hours on a Windows 8 system. Requires separately purchased HP ElitePad Expansion Jacket with additional battery. Testing conducted by HP consisting of full battery discharge while running a series of productivity scripts against the following applications (which may or may not be included with your particular product): Adobe Acrobat Reader 7.0, Adobe Illustrator CS2, Adobe Photoshop CS2, Apple QuickTime 7.1, Intervideo WinDVD 8, Macromedia Flash 8, Microsoft Office 2003 Pro, Microsoft Project 2003, and Winzip 10.0. Prior to testing, the system was fully charged, display brightness was set at 60 nits, wireless was turned off, and auto dim, suspend, hibernate, and all other programs, utilities, and services not essential to running the computer system or battery life test were disabled. Battery life will vary depending on the product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage.

[3] Service levels and response times for HP Care Packs may vary depending on your geographic location. Service starts on date of hardware purchase. Restrictions and limitations apply. For details, visit hp.com/go/cpc

[4] Service tool must be purchased separately. For customers in the United States and Canada, visit hp.com/partners/SMprogram to find out more about our self-maintainer program. For Latin America, EMEA, and Asia Pacific customers, please work directly with your sales account representative to understand what self-repair program options may be available for you.

HP ElitePad accessories

Expand what you can do with a suite of accessories designed specifically for the HP ElitePad.[1] Boost battery life up to 20 hours.[2] Add a keyboard. Plug into ports and adapters.
Dock at the office. Be productive wherever the day takes you.

HP Care Pack
Protect your investment. Stop worrying.
Get enhanced protection for your HP ElitePad with optional HP Care Pack service offerings, such as Accidental Damage Protection, Next Business Day Onsite Repair, and Traveler's Coverage. A variety of onsite and offsite repair options are also available, for up to five years of total support.[3]

Jackets
More than a case. It's built-in intelligence.
Get the ports you'd expect on a PC. Extend battery life. Add a keyboard. Simply slide your HP ElitePad into a stylish Expansion Jacket or Productivity Jacket, and instantly it's so much more.

Stands and docks
Elegantly simple. Exponentially powerful.
Dock your HP ElitePad and transition seamlessly from on-the-road to at-your-desk. Recharge your battery, multitask on a second screen, and get the additional ports you'd expect on a PC.

Cases
Sophistication. Durability. We've got you covered.
Protect your HP ElitePad in style. Store it, carry it, stand it up. Whether you need to work in demanding environments or corporate boardrooms, we have a case for you.[1]

Input devices
Use it your way.
Add a Productivity Jacket or a sleek, lightweight Bluetooth® keyboard and type like nobody's business.

Power and charging
Power up. Carry on.
Whether you need a module to charge 10 tablets at once or a mobile power adapter for just one, we keep you going day after day.

Cables and adapters
PC ports. Minus the PC.
We have an adapter for that. Connect your HP ElitePad to HD displays and projectors, external drives, multimedia, USB devices, printers … you name it.
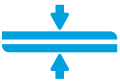

Service tool
Open up.
The easy-to-use service tool opens the ElitePad's magnetic locks, removes the touchscreen, and provides access to the internal system components for maintenance and upgrades. Available to HP Self-Maintainers.[4]

Touch screen
Intuitive touch capability gives you direct, hands-on control.

Thin and light
At just over 3 pounds, it's a powerful PC that won't weigh you down.

Backlit keyboard
Keep working even in dim light or on red-eye flights.

HP EliteBook Revolve

Work doesn't always adapt to your style. So we designed an HP EliteBook PC that does. Our ultra-thin, full-performance Windows 8 notebook twists to share content and folds flat into a tablet, so you can choose what works best in any situation.[1] And with enterprise-class components, it's easy for IT to deploy, manage, and secure. The HP EliteBook Revolve: Business keeps changing. Adjust accordingly.

Notebook. Tablet. Choose.
The 11.6-inch diagonal screen rotates to let you share your best work. Or twist and fold the touch-enabled display and go ultra-mobile as a tablet.

Touch. Type. Write.
Get the intuitive touch experience you expect, optimized for Windows 8. With a keyboard and optional pen, you can choose the tools that work best for you.[2] And with up to 8½ hours of battery life, you can work without worrying about recharging.[3]

Durable. Dependable. Elite.
Premium materials like scratch-resistant Corning Gorilla Glass 2 and an all-magnesium chassis ensure that your HP EliteBook Revolve goes the distance.

[1] Not all features are available in all editions of Windows 8. Systems may require upgraded and/or separately purchased hardware, drivers, and/or software to take full advantage of Windows 8 functionality. See microsoft.com.

[2] Pen not included; must be purchased separately. The HP Executive Tablet Pen does not support the hover feature, which may be required for some Microsoft Windows 8 apps. Please refer to hp.com/go/hpexecutivetabletpen for more information.

[3] Battery life will vary depending on the product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage.

Long battery life
Power through projects without worrying about recharging—up to 8 hours and 15 minutes.[1]

Thin and light
At just over 3 pounds, it's a powerful PC that won't weigh you down.

Backlit keyboard
Keep working even in dim light or on red-eye flights.

HP EliteBook Folio

Travel light at full power. HP's first business Ultrabook™ with enterprise docking capabilities included, the HP EliteBook Folio keeps you productive from the airport to the desktop. You get the mobility of an Ultrabook™ with the business functionality you demand. Stress less. Do more. Resume from sleep quickly and knock out projects fast. With long battery life, you can keep up with whatever the day brings. The HP EliteBook Folio: Enterprise ready. IT friendly. All business.

Thin. Powerful. Serious.
At just ¾ inch (1.9cm) thin and less than 4 pounds, it's our slimmest EliteBook yet, but it still makes room for a full set of ports and connectors—USB 3.0, Ethernet, VGA, DisplayPort, docking, and more.

Fast. Reliable. Responsive.
Business won't wait, so get going in seconds with Flash Cache technology or a solid-state drive.

Protected. Professional.
HP BIOS Protection keeps you up and running with enhanced protection against virus attacks and other threats, and the embedded TPM security chip helps protect your data.

[1] Runtime up to 8 hours and 15 minutes requires configuration with 256GB mSATA module and Windows 8 OS. Battery life will vary depending on various factors, including product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See bapco.com for additional details.

HP x2401 24-inch LED Backlit Monitor

Simply striking anyway you look at it; the HP x2401 monitor delivers vivid color imagery from almost any angle with MVA panel technology, along with a sophisticated micro-thin design and smart connectivity. It's perfect for sharing photos and videos with everyone gathered around.

One USB
A single USB cable connects quickly and easily.

HD

24" diagonal HD display
Improve productivity with an adjustable, high-definition widescreen display.

Satisfy your sense of style
The unique, adjustable easel stand design lets you free up even more limited space, while adding a touch of modern architecture that's just as functional as it stunning.

Unleash your viewing experience
Enjoy the freedom to show off and spread out across a 61 cm (24") diagonal, Full-HD[1] LED-backlit display that lets you multi-task in crisp, vibrant detail.

Form meets function
Quickly and easily connect the display to your notebook or desktop with integrated DisplayPort or HDMI connectivity (with HDCP support).

A brighter future
Mercury-free LED backlighting saves energy and helps decrease your environmental footprint.

[1] High definition (HD) content is required to view HD images.

2MP webcam
Look your best on video conference calls.

Optional touchscreen
Intuitive touch capability gives you direct, hands-on control.

HD

23-inch (58.4cm) diagonal HD display
Improve productivity with an adjustable, high-definition widescreen display.

[1] Based on HP internal testing comparing 250GB HDD and 250GB HDD + SRT on the 8300 SFF. Depending on system configuration, your results may vary. Requires a compatible Intel Core processor, enabled chipset, Intel Rapid Storage technology software, and non-SED HDD + optional mSATA SSD flash cache module. Intel Smart Response Technology is only available on select 2012 HP systems.

HP Compaq Elite 8300 All-in-One

Introducing the HP Compaq Elite 8300 All-in-One; our most powerful, multimedia-rich all-in-one with advanced technology ideal for business-critical performance and reliability. Full wattage processors offer maximum processing power for all your demanding applications. Boost productivity with the latest PC technologies and collaboration tools, and simplify your IT environment with remote manageability features and integrated enterprise security. Meet business needs now and into the future with a sleek and smart design— engineered to perform and fully backed by HP. Available with a touchscreen option.

Simple. Efficient. Integrated.
Reduce clutter and eliminate peripherals with a smart, all-in-one design. Setup is quick and easy: unpack, place, plug in, and switch on. Wired and wireless connectivity options integrate seamlessly with your office environment.

Look. Listen. Touch.
The optional multi-touch display streamlines access to business-critical information and customer-facing applications. A variety of gestures offer more complete control.

Fast. Effective. Smart.
Intel® Smart Response Technology delivers up to 52 percent faster boot time and improves overall performance up to 181 percent.[1] And at the end of the day, it shuts down up to 33 percent faster.[1]

HP EliteDisplay Monitors

Give your business-critical users the displays they crave with HP EliteDisplay Monitors that deliver outstanding ergonomic adjustability, convenient connectivity, and a premier energy-efficient design in wide-format 20-inch (50.8cm), 21.5-inch (54.6cm), and 23-inch (58.4cm) diagonal screen sizes.

Adjustable height
Make yourself so comfortable you forget you're at work.

Eco efficiency
Save money with an energy-efficient design.

VGA
DVI-D
DisplayPort

Enhanced connectivity
Connect devices with convenient VGA, DVI, and DisplayPort inputs and an integrated USB hub.

Versatile. Adjustable. Comfortable.
Customizable tilt, swivel, and pivot settings and a 150mm height adjustment range—the most adjustability available on an HP business display—help you find your most comfortable working position so you can power through your day.

Crisp. Clear. Colorful.
Get vibrant text and graphics from the ultra-thin, LED-backlit panel. Enhance multiple-monitor setups with wide viewing angles. And keep your content crisp and readable with high contrast ratios and fast response times.

Smart. Efficient. Responsible.
Reduce power consumption and help lower your costs with intelligent, energy-efficient designs that carry ENERGY STAR®, EPEAT® Gold, and TCO certifications.[1]

[1] EPEAT Gold where HP registers commercial display products. See epeat.net for registration status in your country.

HP recommends Windows.

Windows 8 Experience

The latest Windows operating system integrates and extends the advantages of professional business computing across a wide range of platforms, from traditional tower PCs and touch-capable all-in-ones to thin-and-light notebooks, convertibles, even tablet PCs. The consistent user interface provides a common frame of reference and a seamless user experience over a range of devices and environments.

Enterprise IT organizations realize significant advantages from transitioning to Windows 8:

• One operating system for all platforms, with compatible software and hardware, allows IT personnel to concentrate their time and training on a single operating environment, developing greater depth of expertise and improving their efficiency and effectiveness.

• Built-in Windows 8 security features work together with HP Client Security to protect your business-critical data from accidental exposure as well as deliberate theft.

• Windows 8 remains the premiere business operating system, and we've taken extraordinary care to ensure that your HP Elite business PCs make the most of the capabilities and opportunities Windows 8 has to offer.
