Troubleshooting

Playing Music:

Your “WALKMAN” is not playing back music.

- Your “WALKMAN” is not connected to your computer.
- Your computer is not on.
- Your computer is not recognized when you connect your “WALKMAN” to it.
- Your “WALKMAN” is not connected to your computer properly and the computer has not recognized your “WALKMAN.”

When your computer enters a power saving mode or Sleep mode, your “WALKMAN” may stop operating.

Precautions

Use and maintenance:

- Use your “WALKMAN” in the range of 5 °C (41 ºF) to 35 °C (95 ºF).
- Prevent your computer from entering Sleep or Hibernation mode.
- If you format your “WALKMAN,” all data will be erased and all settings will return to their defaults.
- If you format your “WALKMAN,” all data will be erased and all settings will return to their defaults.

If you format with Windows Explorer, format the factory, bundled software installer and the User Guide (HTML document) will be erased. Be sure to make copies of important data.
