

GKB710L-RD

Kaliber Gaming MECHLITE Mechanical Gaming Keyboard - Red Switches

Mechanical Gaming Keyboard

Kaliber Gaming's MECHLITE Mechanical Gaming Keyboard combines the exceptional feel and response of mechanical key switches with the must-have features gamers demand most. The MECHLITE is first and foremost a professional level keyboard, with an entirely mechanical design that was previously out of reach for most players. Even with the high cost of mechanical key switches, Kaliber Gaming has still managed to add LED backlight with adjustable brightness and a host of other features for a price that won't break the bank.

Full Mechanical Keys

The MECHLITE is available with your choice of blue, brown or red type mechanical switches so you can choose the keyboard feel that best fits with your play style and typing preference.

Blue switches (GKB710L) provide a slightly resistive tactile feel with a bump-like actuation point that makes an audible click when pressed, giving gamers that assurance of positive engagement.

Brown switches (GKB710L-BN) are quieter (less-clicky) and require slightly less actuation force than Blue switches for a lighter overall feel.

Red switches (GKB710L-RD) have no actuation click, making them even quieter than Brown switches and feature a linear design that provides the same smooth, solid feel throughout the full travel of the keystroke.

Unlike dome or membrane switches, mechanical switches do not need to be fully depressed for proper registration, allowing users to game faster and with less hand fatigue than with traditional keyboards.

- Red type linear mechanical switches deliver a smooth, quiet response
- 5 programmable macro keys with up to 32 characters each
- Anti-Ghosting keys with full rollover so you never miss a keystroke!
- Double injected keycaps so key characters never wear off
- Blue LED backlight with 6 lighting patterns
- W-A-S-D key functions swappable with arrow keys for MMO gamers
- Windows key lockout prevents accidental pop-ups while gaming
- All key lockout prevents unintended keystrokes during game breaks
- Heavy weight keyboard base for added stability when typing or gaming
- Gold-plated USB connector with braided cable jacket

Requirements

- Windows® 10, Windows® 8.1, Windows® 8, Windows® 7, Windows Vista®
- USB Port

Package Contents

- 1 x GKB710L
- 1 x Quick Start Guide
- 1 x Warranty Card

Specifications

Function	GKB710L-RD	Dimensions	GKB710L-RD
